CURIOUS END TO A LAWSUIT .- Margaret Mitchell was arrested and brought before Trial Justice S. L. Bennett, yesterday morning, charged with an assault and breach of the peace against O. H. Williams. After a thorough examination of the case, she was bound over to keep the peace and, before being discharged, received a wholesome lecture from the trial justice on the evil course she was pursuing. The lecture proved most effective, for the hitherto belligerent couple began quickly to cast "sheep's eyes" at each other, and were soon smitten with a mutual flame. The time was propitious, the justice waiting, and in the twinkling of an eye they were united in the bonds of matrimony. Receiving the congratulations of the numerous witnesses the loving couple, as happy as big sunflowers took their leave of the court, and went on their

TERRIFIC BOILER EXPLOSION.

Yesterday the works of the Etiwan Sulphuric Acid and Superphosphate Company, on Town Creek, three miles from the city, became the scene of one of those unfortunate accidents against which it seems no human precautions can provide. As if to guard against accident, the old boiler had been replaced a few days before by a new one fifty-six inches in diameter and double flued, which was used for the first time on Monday last. Instead of the single fireman usually at work, two experienced men were engaged in attending to this duty. The engineers and all the workmen were at their post, little suspecting the terrible catastrophe about to happen. At halfpast 1 o'clock a violent explosion shook the building, and the apariments near the engine were filled with dense volumes of steam. As soon as the steam had sufficiently cleared off, the assembled workmen entered the apartment and commenced to investigate the injury done. Geo. W. Shokes, the machinist, was found dead, having been killed outright by the steam and scalding water, his body showing by the marks upon it the terrible violence of the expiosion. Mr. Jno. L. Williams, the engineer, was also so terribly scalded that he is not expected to live. Captain Horace A. Pratt was likewise badly scalded Neither fireman was injured, and only a few other persons were scalded in a trifling manner.

Upon examining the boiler it was found that the two fines, each eighteen inches in diameter, running lengthways through it, had both exploded, each driving out both its ends, where they were riveted in the boller, with terrific violence. The four heads were driven against the brick wall of the apartment as if from a cannon, and the rush of steam consequent thereon had occasioned the distressing casualties above mentioned. The matter was quickly reported to Coroner

Taft, and at 5 o'clock an inquest was held over the body of the deceased machinist. In the exmination it was shown that a few minutes before the accident there was plenty of water in the boiler, and the engine running under a pressure of seventy pounds of steam. It was proved that they usually worked with from sixty to seventy pounds of steam, and by the testimony of experienced workmen, that the boiler could carry one hundred pounds with ease. Under these circumstances, and not the slightest negligence having been shown, the jury brought in a verdict of death from an accidental explosion at the Etiwan Works.

The boiler can now be seen in its original pos tion, the heads of the flues being blown out at both ends. A partition was blown down, and all the sashes broken in the engine room. There was no other damage done to the works except that by the water and the displacement of a few bricks. No possible cause can be attributed for the accident except a flaw in the boiler flues.

NUISANCES ABATED .- A descent was made yesterday afternoon by Officers Lovitt and Truall on several houses of ill fame that infest the city. not far from King street. Thirteen of the in mates were arrested and brought down to the Detective office, where an examination took place. They were bound over to appear at the next term of the Court of General Sessions.

A PROSPECT OF CHEAPER TELEGRAPHING. A few days ago, in New York, some extraordinary experiments were made with Little's improved automatic telegraph. Messages were transmitted to and from Washington as a test. These messages contained a thousand words each, and were delivered within the minute. By Mr. Little's new invention, two thousand words per minute can be transmitted over a No. 5 wire, between New York and Washington, and one thousand words per minute on a No. 8 wire. Under the new system, a message costing a dollar by the Western Union line will cost about seventeen

A QUESTION OF COLOR .- Mayor Pillsbury announced from his chair in Council last night that one of the considerations in the election for lieutenant of police was the question of color, and he deemed it due to the colored race that they should have a representative among the officers of the police force. Assuming that his views were those of Council, he nominated William M. Viney, a colored man, formerly a roundsman of the police force, but latterly a State constable, for the position. The Aldermen, while probably disposed to give the colored race a good share of the spoils, were not willing to have their prerogatives so summarily dispensed with, and the Mayor's net received but three votes, and Sergeant Cassidy, who has been connected with the force for about twenty years, was elected on the second ballot.

A BEAUTIFUL PRAYER .- At the request of many who were present, we print below the prayer offered by the Rev. James W. Miles, at the anniversary celebration of the Chrestomathic Soclety of the College of Charleston, on Monday evening last. will be found to be singularly worthy both of the occasion and of its eminent author:

Omniscient and Ort nipresent God, to whom all hearts are open, all desires known, and from whom no secrets are hid, we humbly and gratefully acknowledge the privilege of always and at all times communing with Thee. Keep us ever mindful that without Thee nothing is strong, nothing is holy; that in Thee alone we live and move, and have our being; and that it is only by the influence and inspiration of Thy Spirit that our acts, moral or intellectual, have any value or utility. May the influence of Thy all-pervading Spirit keep us ever mindful how noble is intellect consecrated to learning—to recognize Thee in all the laws of the universe; and how noble is affection comprehending through Thee the law of love to all our fellow-beings. May we be kept in this spirit; humbly recognizing our privileges as intellectual and moral bings; gratefully fulfilling our duties, as enabled to help one another in communion with and through Thee. While thus discharging our duties in the present, may we never doubt. Thy providence, nor the ultimate vindication and triumph of principal and truth in the evolution of Thine infinite wisdom, in the sublime draina of the ages.

Common Father of all, who knowest our necessities before we ask and our ignorance in asking, according to Thine own infinite beneficence, be with us and help us in all our thoughts and acts, that in all we may act worthiny as Thy children; children of a Father of all wisdom and righteousness—children of a Holy Spirit of all gentleness and love—children and breaks Christ, in whose name we now humbly conclude our act of devotion.

COUNCIL. Election of Lientenant of Police.

Present, the Mayor, Alderman Geddings, Potter, Cunningham, Holloway, Voigt, Hampton, Small, Brown, E. P. Wall, Thorne, L. F. Wall, Howard, Collins. Greene and McKinlay. The minutes of the last meeting were read and

Alderman Geddings read a petition from John H. Devereux and others asking to be relieved from exorbitant taxes on property situated on Charleston Neck, as they pay taxes for road drainage, &c., and receive no adequate recom pense from the city, in shape of protection. The petition sets forth the grievances at length, and ou motion of Alderman Vigt was referred to the committee on retrenchment and relief. A petition from wharf owners and lessees was

read by the Mayor asking for a light on all nights, moonlight nights included, in order to secure a proper guard on their property. Referred to the committee on lighting the streets. The petition of the owners of Brown's wharf,

praying to be relieved from exorbitant taxation, showing that the same property had been assessed in both Wards 1 and 3, was referred to the city appraiser, with power to summon the appraisers of Wards 1 and 3 and report the result to Council.

A report from the city engineer, with accompanying plat of King street, between Queen and Clifford streets, recommending that the line be adjusted, was referred to the committee on streets, with instructions to report at an early day. . Alderman Voigt, from the committee on put lic lands, presented a report in favor of continu-

ing the lease of the White Point Bathing-house to Mr. McManmon for ten years, at \$50 per annum. Adopted. Alderman Holloway requested further time to report on the petition of the Palmetto Fire Com-

pany. Granted. Alderman L. F. Wall presented favorable reports on the petition of C. Morris & Co., to erect steam engine, and of F. Melchers for the refund-

ing of insurance license. Granted. Alderman Geddings presented sundry bills which were passed for payment. The Mayor stated that hy act of the Legislature

Council was authorized to elect a board of equalization, who would act with the State board. On motion of Alderman Collins, consideration of this question was postponed until the Mayor saw fit to call an extra session for that purpose. The Mayor stated that on the 19th of November Lieutenant Taft, of the police, tendered his resig-

the confirmation of this action by Council. On motion, the resignation was accepted. The clerk of council and other newly elected city officers then presented their bends and sureties, which were approved and accepted.

nation, which had been accepted, and asked for

The Mayor called attention to the vacancy on the police force, and stated that competency and fitness were the qualifications necessary for the position; but there were other questions that arose, that of color, and as his life-long predictions were that all men were born equal, he thought that the claims of the colored race to a representation should not be ignored. He thought that the above qualifications were found in William M. Viney, colored, and nominated him for the position. This assumption of judge and jury created some little excitement among the Aldermen, who thought their prerogatives somewhat curtailed, though nothing was said on the subject. The vote, when taken, stood 12 nays to 3 ayes, which proved that the views of the Mayor were not those of the

The Mayor then read the following list of candidates : J. W. Nunan, H. C. Minott, John Cassidy, N. A. Quinn, R. A. Lee and W. M. Viney.

The vote was then taken with the following re sult: Cassidy 6, Quinn 3, Nunau 2, Lee 2, Minott 2. Another ballot was called for, as a majority of the votes present were requisite to insure an election. The result was: Cassidy 9, Quian 5, Minott 2. Mr. Cassidy was therefore declared to be elected lieutenant of police. The committee to whom was presented the pe

tition of G. Susdorff, offering to cede certain lands in Havne street in lieu of taxes and other dues to the city, reported unfavorably, and, on motion, the mortgage was ordered to be foreclosed. On motion of Alderman Collins, Council ther

CINDERELLA AT THE ACADEMY .- The "Bevy of Beauty," as the Worrell Troupe are alliteratively called in the bills, made their second appear ance last night, attracting a good house by the magnetism of artistic skill and conspicuous personal pulchritude. Cinderella in burlesque, as every one knows, is one of the jolliest institutions d in the hands of the "Beyv of Beauty" and their masculine supporters, it loses none of its lyrical and dramatic charm. A Charleston audience is, however, hardly up to the modern pun. This branch of their education has been neglected, and scores of worthy people will sit gloomly silent while bon-mots snap and spark'e like the crackers of the coming Christmas time. A great deal depends on the distinct enunciation and accent of the performers, and the Worrelis let few opportunities pass of making their wittleisms tell. The Prince Pretty-Pet of the evening was Miss Sophle Worrell, who, having recovered from her slight hourseness, sang charmingly. Her acting was full of south side of Cannon street, measuring 40 feet in grace and finish, and in costume she might modestly be called "a howling swell." The exquisite Dandini was Mi-s Julia Sheldon, as witching and harmoulous as ever; while Clorinda was exceedingly well done by Miss Emma Hall. Thisbe was entrusted to Mr. Harry Wood, the "chaste impersonator of female character." From Hotspur to a hoopskirt. What a falling off, my countrymen And very well done, at that. Mrs. DeSoyer was a charming Pairy Queen. This lady dances re-

markably well. The Vol-au-Vent, by Hernandez and the other attractions of the evening, are more easily imag ined than described. But the performance has one fault. There is too much for the money.

To night the performance begins with a roaring farce, to be followed by Black-Eyed Susing, (with Sophie Worrell as William,) concluding with the Brigand's Attack, in which Hernaudez and the Leons will appear

CRUMBS .- The German Fire Company will give a ball this evening, at their hall, in Chaimers street.

The Accommodation Wharf and other valuable eal estate will be sold to-day.
